SUMMARY OF QUALIFICATIONS

- 5+ years of experience in WordPress development, website optimization, and digital performance.
- Advanced skills in custom theme development, WooCommerce, and responsive UI/UX integration.
- Strong technical expertise in debugging, hosting management, DNS/SSL/SMTP configuration, and site security.
- Bilingual communicator (English & French) able to collaborate effectively across technical and non-technical teams.
- Hands-on experience with GA4, Google Tag Manager, event tracking, and conversion measurement.
- Proven record of improving Core Web Vitals, increasing PageSpeed scores, and reducing site load time.
- Demonstrated ability to solve complex website issues, optimize user journeys, and support digital growth objectives.
- Strong experience with Cloudflare CDN, caching layers, and performance auditing tools (Lighthouse, GTmetrix).
- Skilled in creating custom AI/GPT assistants for automation, content generation, and workflow optimization.
- Experienced with Google Ads, Meta Ads, email automation platforms, and full-funnel SEO strategies.

WORK EXPERIENCE

Web Developer   **2023–Present**
Opes Software, Quebec, Canada

- Performed a full technical and SEO audit using GTmetrix, PageSpeed Insights, SEMrush, Ahrefs, Google Analytics, Search Console, and Screaming Frog.
- Diagnosed and resolved major WordPress issues, including outdated core, multiple page builders, plugin conflicts, and security vulnerabilities.
- Optimized site architecture by reducing plugin bloat by 65%, updating WordPress safely, and implementing Wordfence, Cloudflare CDN, and advanced caching.
- Improved performance score from 39 → 80 and enhanced Core Web Vitals, significantly boosting load time and user engagement.
- Increased domain authority from 8 → 22 through backlink strategy and content optimization, supporting +32% organic visibility growth.

Web Developer   **2023–2025**
Net Courtage Assurances, Rabat

- Built the company's entire digital ecosystem from scratch, including the corporate website, multiple blogs, and insurance comparison platforms in WordPress.
- Designed and executed a full lead-generation strategy (SEO, Google Ads, Meta Ads, Email), scaling from 0 to 600+ monthly leads, including 100 high-quality organic leads.
- Increased conversion rate from 3% to 12%, allowing the company to fully switch from purchased leads to in-house digital acquisition and reduce acquisition costs.
- Implemented advanced SEO architecture and keyword mapping to avoid cannibalization and ensure long-term, sustainable organic traffic growth.
- Managed all web infrastructure: domain acquisition, hosting, WordPress setup, theme integration, and plugin optimization (GTmetrix & PageSpeed scores consistently 90%+).
- Built and managed cross-channel social media presence (Facebook, LinkedIn, Pinterest, Instagram, TikTok) aligned with both organic and paid acquisition targets.
- Produced optimized visual and video assets using Canva, Freepik, and AI video tools, improving engagement and ad performance across campaigns.
- Developed internal AI tools (custom GPTs) to audit customer calls, reducing manual review workload by 80% and increasing compliance accuracy.

Web Developer   **2021–2022**
BAEC, Rabat

- Developed and optimized multiple government websites using WordPress and Joomla.
- Managed DNS, hosting, and mail systems for multiple domains.
- Improved SEO visibility by 30% via technical optimizations.
- Ensured updates, backups, and stability improvements.
- Resolved 50+ website issues improving uptime and reliability.
